

# Concept links of texts used for each strategy

This program includes a variety of informative texts that cover a range of topics and themes. In each text, the written information is supported by high-quality visual material, including photographs, tables, diagrams and maps.

The texts that have been selected for each lesson within a strategy lesson plan are linked through a common concept.

<b>Strategy</b>	<b>Module 1 Concepts</b>	<b>Module 2 Concepts</b>	<b>Module 3 Concepts</b>	<b>Module 4 Concepts</b>	<b>Module 5 Concepts</b>
Making Connections	Science and us	Weather and climate	Rights and responsibilities	Communication	Sending messages
Monitoring and Clarifying	Plants	The past	Technology	Survival and adaptation	Ecosystems
